## Price List for SIPs\* Decks

SIPs Package	YURT SIZE				
	16'	20'	24'	27'	30'
<b>COMPLETE SIPs Deck:</b> <i>precut SIPs panels with mortised 3/4" sub fascia: includes bender board, beams, piers, anchoring system &amp; hardware</i>	\$3,135	\$4,585	\$6,125	\$7,405	\$8,990
<b>SIPs Deck W/ Support Beams:</b> <i>precut circle with mortised 3/4" sub fascia: includes 5/8" x 9" composite bender board and support beam set</i>	\$2,650	\$3,990	\$5,530	\$6,845	\$8,435
<b>SIPs Deck:</b> <i>precut circle with mortised 3/4" sub fascia: includes 5/8" x 9" composite bender board.</i>	\$2,170	\$3,260	\$4,460	\$5,275	\$6,670

**\*Structural Insulated Panels (SIPs):**

- 3 1/2" engineered, energy efficient (R-27) polyurethane foam panels sandwiched between two sheets of 7/16" oriented strand board, pre-cut to the exact diameter of the yurt. Polyurethane foam is free of CFC's and formaldehyde.
- A 3/4" plywood sub-fascia is stapled flush into the radius of each SIP panel, providing a rigid perimeter and reliable nail base for connecting bender board.
- Panels attach to beam system with 8" star drive wafer-head screws, provided

**Bender Board:** 5/8" x 9" composite bender board is manufactured from 50% high quality film polyethylene/50% reclaimed wood. Attaches to plywood sub-fascia with #8 x 2" yellow zinc plated deck screws.

**Beam System:** 4" x 6" (on 16' and 20'yurts), 4" x 8" (on 24'yurts), 4" x 10" (on 27' and 30'yurts) Douglas fir beams pre-cut and drilled for 8" star drive wafer head screw connectors, provided. Simpson truss plate and beam connectors are provided where necessary.

**Piers:** Adjustable steel mobile home piers with 4" x 4" flat pier-head support the beam system. Pier head screws into bottom surface of beam with #14 x 1 1/2" stainless hex drive flange screw (provided). Piers bear on engineered ABS pads on evenly compacted soil.
